WORLD NEWS IN REVIEW

Peter Conley

Peter D. Conley, business manager of the San Francisco Opera and Symphony, died unexpectedly at his home Wednesday night.

One of the best-known figures in San Francisco's musical circles, Peter Conley will be sorely missed in the city to which he contributed so much that was worthwhile and permanent.

Loyalist Spain

Significant of the complete surrender of Loyalist Spain was the formal good-bye tendered Secretary of State Hull last week by Dr. Fernando de los Rios, ambassador from Spain since 1936.

On the day following, Secretary Hull on behalf of the United States offered diplomatic recognition to Dictator Franco.

Dangerous Invader

Describing a species of malaria mosquitoes which have invaded Brazil as more dangerous enemies than any imagined invaders from Mars could ever have been, Raymond B. Fosdick, president of the Rockefeller Foundation, last week explained the menace of the "Anapheles gambiae."

The "Anapheles gambiae" first arrived in Brazil from Central Africa nine years ago. Since then they have multiplied and scattered to such an extent that last year in eastern Brazil they spread more than 50,000 cases of malaria, leaving 90 per cent of the population feeble and impoverished.

The Foundation has set aside $100,000 for the fight to control the dread insects.

Four Committees To Study Health Budget

Holding its second meeting under chairmanship of Dr. A. E. O'Neill, Redwood City dentist, the reorganized San Mateo County Board of Health and Welfare last week was divided into four main committees.

Miss Pansy Jewett Abbott and Dr. Will Rebec were placed by Dr. O'Neill on the health division committee; Dr. O'Neill and Dr. N. D. Morrison on the social service committee; Drs. Rebec and O'Neill on the staff and medical procedure division of the hospital committee and Dr. Morrison and A. H. Randall on the operation and maintenance division of the hospital committee; Randall and Miss Abbott on the relief home committee. The board as a whole will study the health department's budget.

Nominate Best Horses For Classic

Tanforan's annual spring classic—the $5,000 added Marchbank Handicap April 22 at a mile and an eighth—has drawn the nominations of fourteen of the best horses in Western training.

Charles S. Howard, who won the 1937 renewal of the Marchbank with Seabiscuit, will run a triple-barreled entry consisting of Galapas, Chanceview and Advocator. This trio may be the starting favorites, as Galapas, winner of the Exposition and King's Mountain Handicaps here, is making the same remarkable improvement that Seabiscuit did when he first joined the Howard forces.

International Color

The race will have a dash of international color as Mrs. James F. Waters' Falerno, an Argentine importation, and Clarence Shockley's Bachiller, from Chile, are both nominated. Falerno has proved his class against topflight American competition, but Bachiller is more or less of an unknown quantity. Shockley imported Caballero II, Sahri II and other stars from Chile.

Sweepalot and Masker, a pair of hard-hitting handicap hopes from the stable of Harry Curland, will form a strong entry in the stakes.

Then there's a newcomer to Northern California racing—Congressman, who beat good ones at Santa Anita during the winter and now is training excellently after a short lay-off.

Weights will be announced April 19.

The complete list of nominations follows:

Horse	Owner
Galapas	C. S. Howard
Chanceview	C. S. Howard

Artist To Speak

Rockwell Kent, outstanding artist and author, speaks on "The Artist in Defense of Democracy" at Scottish Rite auditorium, Monday, April 17, at 8 p. m.

Engineering Dept. To Assume Four Duties

Four major duties have been shifted into the newly formed city engineering department headed by J. F. Castelan: (1) building inspector including plumbing and electric, (2) superintendent of parks and playgrounds, (3) superintendent of streets and sewers, (4) purchasing agent.

These responsibilities are being oriented by Castelan in order that more rapid and efficient service may be given local residents and particularly builders who have construction work under way in Daly City.

When the new city hall is finished engineering offices will be located there. Until that time, Castelan may be reached at the temporary water office, 6393 Mission street, phone RAndolph 0633, or at his home, 862 Bellevue avenue, phone RAndolph 6813.

Prior to the inauguration of the engineering department, Arthur Bodien, superintendent of the water department handled much of the work now delegated to the new engineer. Due to the rapid expansion and development of Daly City, Mr. Bodien and his department are now far too busy to handle any duties other than those of the water works.

Golden Empire Plans Centennial

Sacramento and the fifteen other counties of California's Golden Empire are making a romantic and colorful contribution to California's Fiesta Year. This is the Sacramento-Golden Empire Centennial, celebrating the one hundredth anniversary of the founding of Sacramento by General John A. Sutter, which brought the first civilization to interior California.

Replete with thrills and spectacles, the gala Centennial will start May 1 when historic Sutter's Fort, established in 1839 and now restored to its original condition, will be opened.

The picturesque mining towns which sprang up following Marshall's epochal gold discovery, which altered the course of a democracy, will be revived with construction of "Roaring Camp," a typical Mother Lode mining village of the gold rush days. "Roaring Camp" opens May 12.

The centennial is being conducted under civic sponsorship.

Councilmen Hear Building Ordinances

Two ordinances, framed to aid building in Daly City, were introduced at council meeting Monday evening. The first prohibited entrance to buildings under construction. Its sponsors, including the Daly City Record, hope to solve a serious problem which has for some time confronted builders here—that of children playing in and damaging buildings under construction. The second ordinance proposes to establish street grades in the southern portion of Daly City, (this area prior to the 1933 annexation was a part of rural Colma).

Under preliminary discussion was an ordinance to control and regulate house trailer parking and trailer camps within the corporate limits. Councilmen laid the measure over for a detailed study at their next caucus meeting.

The resignations of two firemen from Company No. 5 were accepted. They were C. F. Reinhart sr. and J. H. Cosbie. Named to fill vacancies left by these men and one other vacancy in Company No. 5 were: Thomas O'Brien, Victor Fellman, and William L. Morris. Herman J. Segale was named to fill a vacancy in Fire Company No. 3.

Boulevard Connection

Councilmen and citizens who attended the meeting discussed at length a proposed centrally located crossing of the Southern Pacific tracks as part of an arterial which would connect Mission street and Junipero Serra boulevard. Knowles avenue, Hillcrest drive, Los Banos and Los Olivos avenues were mentioned as the most likely crossings.

Engineer Julius F. Castelan was instructed to make a thorough study of the proposal and submit a report to the council.

The engineer was also instructed to prepare plans and make application for WPA projects on the following developments: Vista Grande Park, south end street work, street work in the west end district, Bepler street, Rhine street, and Woodrow street near the high school.

Cahill Tells Board Mills Field Better

Mills Field air terminal, which will have cost more than six million dollars when the present construction program is completed, will be from six to eight years in reaching capacity and will, at all times, be less expensive to operate than the contemplated Treasure Island airport.

These and other facts concerning airport development were brought out during a discussion by the San Francisco board of supervisors yesterday. Utilities Manager Cahill cited improvements being made here as principal reason why San Francisco should not launch a development program at Treasure Island for at least six years.

Bayshore Highway An Aid

Completion of the six-lane, high-speed Bayshore highway south from San Francisco, passing this airport, will greatly reduce the advantages of Treasure Island as the city's principal port, Cahill told the board of supervisors.

One of the outstanding reasons given for development of the island base was its easy accessibility to San Francisco. The high-speed highway, when completed, would bring Mills Field relatively much nearer to San Francisco, the board was told.

Island Expansion Impractical

Expansion cost for Treasure Island would be impractical because of the work now being done at Mills Field, Cahill continued. With increased use of seaplanes and use of larger land planes, both seaplane channels and longer runways would be needed at the island. These are both being installed at Mills Field now.

Cost of operating Mills Field is $539,000 annually, or about 6½ cents on the San Francisco tax rate, Cahill pointed out. Cost of operating a terminal at Treasure Island would be at least $800,000, or another 10 cents on the tax rate.

Would Cost Six Millions

Development work at Treasure Island would cost a minimum of $6,643,000; while Mills Field will be able to handle the largest of both land and sea planes upon completion of the present program, which was made possible by passage of a $2,850,000 bond issue, Cahill added.

The airport development projects were turned over to the public utilities committee of the board for study.

Plan Several Horseshoe Events

News from the horseshoe courts, situated between Los Olivos and Los Banos avenues, this week includes a coming match between married and single men, a proposed horseshoe marathon, and a beautification program. The courts are sponsored by the recreation department of the WPA.

The match between the bachelors and the married men will be played Sunday, April 16, at 1 p. m. There is a great deal of friendly competition involved, according to reports.

The proposed horseshoe marathon will be held in the near future, with no time limits set as to the hours of play. This procedure will result in the survival of the fittest. The exact date of the contest will be announced soon.

The beautification program, under the direction of George McLeod, recreation leader, includes general spring cleaning and renovation. The boxes have all been repainted, and the fence on the easterly side of the court is being transformed with white paint, surmounted by a green lattice. The entire ground area of the court will be covered with crushed rock later this week, eliminating the dusty condition now existing.

The recreation department also announced that it has become necessary to bar grammar school students from play on the courts. The demand for play there by adults, including large numbers from the Mission district and other parts of San Franicsco, increases each day. Grammar school students wishing to learn the rudiments of the game are invited to play on the courts at Acton park each afternoon and all day Saturday.

May Use Two-Way Radio Plane System

A two-way radio plane system to facilitate the control of forest and brush fires in San Mateo county probably will be inaugurated this summer, County Fire Warden Bert Werder announced as he left for Davis to attend the annual rural fire institute last week-end.

Test Being Made

Transmitters installed in an airplane which the forest service charters from the Palo Alto airport and at the Alma headquarters are now being tested.

Portable receiving sets will be located in San Mateo county and at the Saratoga and other lookout stations, Werder said. Three wave bands for the radio system have been assigned by federal authorities.

Discussed Plan

The proposed radio plan was among topics discussed at the institute. Assistant Fire Warden Ernest Werder of Redwood City and John Volpiano, chief of the Woodside fire department attended the Davis conference with Fire Warden Werder. The county's large, new fire truck, the most modern in the state, was taken to Davis for exhibition at the institute.

To Elect Officers Of SFPI on April 18

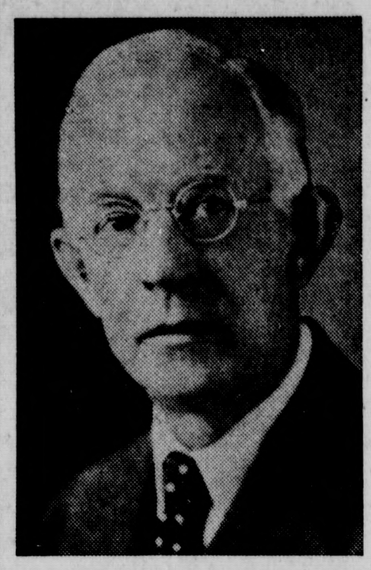
Annual meeting and election of officers for San Francisco Peninsula, Inc., will be held April 18 at the Benjamin Franklin hotel at 6:30 p. m.

Because funds used by the organizations come from taxes, the group has thrown the meeting open to the public and invites public participation in election of officers, announcement of the meeting said.

A list of nominations for the board of directors will be announced later by SFPI, a majority of present directors to be among the nominees.

Reservations for the dinner-meeting should be made at the Daly City Record or directly to SFPI headquarters at the Burlingame Chamber of Commerce.

'No Formula'



Dr. Ernest R. Groves, noted authority on family problems and a professor of sociology at the University of North Carolina was among opening speakers at the fifth annual conference on conservation of marriage and the family, opening Tuesday at Chapel Hill, North Carolina. Dr. Groves told the conference that there is no "cut and dried formula for a successful marriage," but that three essentials are involved: intelligent selection, good preparation for marriage and the spirit of cooperation.

Board Repeals S M Ordinance Requiring Bids

San Mateo county's rigid purchasing ordinance, under which bids had to be obtained on all purchases amounting to $20 or over, was repealed by the board of supervisors at their meeting last week.

As a result of the unanimous action taken by the board after considerable discussion, in 30 days the county's purchases will again be made under general law, which requires bids only on purchases of $500 or more.

The board had inquired of the district attorney's office about feasibility of amending the ordinance so that only purchases of $100 or more would need to be made through submission of bids, but Assistant District Attorney Daniel E. Sullivan, legal adviser to the board, suggested it would be better to repeal entirely the ordinance which had been adopted October 20, 1937, on recommendation of the California Taxpayers Association, which through Alden C. Fensel made a survey of the county fiscal procedure.

Drove Out Business

The 30-day period before the ordinance's repeal becomes effective is to provide an opportunity for a referendum by the people if desired.

In making his recommendation, Attorney Sullivan reasoned that the practical effect of the ordinance had been to drive business out of the county because small purchases could be made slightly cheaper elsewhere and were required to be done under the ordinance.

Effect of the repeal will be to place all purchases in the hands of County Manager Frederick Peterson for him to buy items up to $500 without restriction. Sullivan explained that the general law contemplates that a purchasing agent will make the best purchases possible in the open market.

Easter Egg Hunt Meets With Success

The Easter egg hunt held on the Jefferson Union high school grounds Sunday was an unqualified success, according to an announcement made by the Daly City recreation department of the WPA. Approximately three hundred children flocked over the lawns in the eager search for colored eggs, and not a single child, as far as is known, went unrewarded.

At the conclusion of the hunt all the youngsters were served free ice-cream, donated by Witt's Dairy, Golden State company, Spreckle's Ice Cream company, and Borden's Dairy Delivery.

The hunt, sponsored by the Daly City Recreation department of the WPA, was directed by all the men who serve as recreation leaders.

The day preceding the big Easter egg hunt, (Saturday), a small surprise hunt was held at Acton park, under the supervision of Edward Galli. About fifty children participated. Prizes were won by Marie Haller and Lois Rich.

Local Native Sons informed The Record that many of their high state officials are planning to stay over for the dedication program here.

Finale of the celebration will be laying of a dedicatory plaque to be set in the city hall floor just inside the front entrance. Sponsors of the ceremonies also plan to present a California Bear flag and American flag to the city.

Announce Plans For Memorial Day

Plans were announced this week for Daly City Memorial Day services sponsored jointly by Daly City Post No. 410, American Legion and Old Glory Post, No. 2044, Veterans of Foreign Wars. Principal program activities May 30 will be a parade and memorial services at Vista Grande park.

Parade is scheduled to start at 10 a. m. at Bepler street and San Jose avenue, according to Committee Chairman Les Hill. It will proceed along Mission street to Vista Grande avenue, down Vista Grande avenue to San Diego avenue, thence across San Diego avenue to the park. Daly City band and several uniformed units are entered in the line of march. Boy and girl scouts will be represented. All local organizations, and citizens are invited to participate. Jefferson Union high school musical groups will take part in the memorial services at the park.

New Library Book Expected to Prove Very Popular Here

Recounting one of the darkest days in California history, Carroll D. Hall's "The Terry-Broderick Duel" is expected to prove of especial interest to Daly City residents. Recently issued in a limited edition by the Colt Press, San Francisco, this book has caused a stir in local historical and literary circles.

It will be recalled that this famous duel was fought just outside of Daly City on the shores of beautiful Lake Merced. It was here on a cold foggy morning in September, 1859, that two of the leading political figures of the day—David C. Broderick, United States Senator from California, and David S. Terry, former Chief Justice of the Supreme Court of California, stood facing each other with drawn pistols at ten paces.

The duel itself was the culmination of one of the most bitter political feuds of the day. Its tragic finale, the fatal wounding of David C. Broderick, after the first round of shots, was to have repercussions which have lasted until this day.

In all the furor and discussion surrounding this unfortunate incident, no account is likely to prove more interesting nor more fair-minded than the lively little volume by Carroll D. Hall. The dramatic moments of the actual duel are especially well told.

Mrs. Jean O'Rourk, local librarian, announced that the book is now available at the Daly City public library.

Studebaker Invades Low Price Field

Studebaker has invaded the lowest price field.

Often rumored, this move by the country's oldest manufacturer of transportation, was confirmed here yesterday when the new Studebaker Champion was introduced to the public at the showrooms of William J. Sweeney, located at 6806 Mission street.

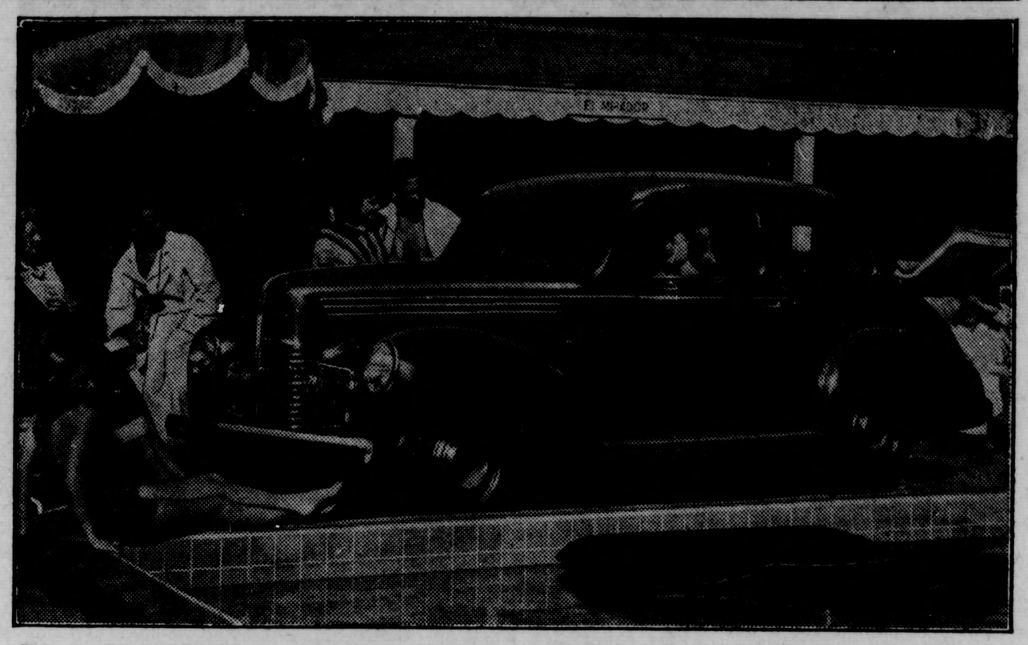
The new Studebaker is a six and its delivered price here places it in direct competition with the very lowest priced cars. In addition to its low price, the new Studebaker has merits of comfort, performance, economy and appearance that, according to Mr. Sweeney, augur for popular acceptance by the public.

"This new Studebaker is a new type of automobile," said Mr. Sweeney. "It has everything that the other full-sized automobiles possess, except useless weight. It weighs about 600 pounds less, because Studebaker engineers have designed a new car, starting from scratch, and by use of new materials and advanced design have taken out the unnecessary heft that gives nothing but added expense of operation."

The new Studebaker Champion was styled by Raymond Loewy, famous creator of the Broadway Limited, a score of New York World's Fair buildings and many other modern productions such as steamships, airplanes and furniture. The Champion has a general resemblance to the Studebaker line of Commanders and Presidents, yet it is distinctly new and has personality of its own.

The Champion will be produced in custom and de luxe editions and there will be three body models in each, a four-door cruising sedan, a two-door club sedan and a coupe.

For the World of Tomorrow



Here is the new Studebaker Champion club sedan, a striking example of the swift-flowing style Raymond Loewy imparts to a motor car. The body is all steel, the visibility is excellent and the 78 horsepower engine gives pep and economy that augur for popularity.

Bank of America Reports Increase

The value of new residential building permits issued by eleven principal California cities in March rose to a new high for any month during the past ten years for which comparable data are available. The March value of these permits was $9,933,000, up 59 per cent over both the preceding month and the same month a year earlier, according to data compiled by the analysis and research department of the Bank of America. The previous high month during this ten-year period was April, 1937, when permits were valued at $8,357,000.

For the first quarter of this year the value of residential building permits in the eleven cities was $23,376,000, an increase of 61 per cent over a year ago and 26 per cent greater than the same months in 1937. Residential building activity has made outstanding gains since 1933, when the value of first quarter permits in the eleven cities was only $2,204,000.

The large increase experienced in residential building during the first three months of this year as compared with a year ago has not been manifest in other lines of construction.

Each of the eleven cities showed higher first quarter 1939 residential building permits than in the same period a year earlier. The most outstanding gain was in Los Angeles, which reported first quarter permits at $12,571,000, a little over one-half the total of all eleven cities, and 77 per cent greater than during the same period a year ago.

Less Pressure Needed to Operate New DeSoto Clutch

An outstanding contribution toward more effortless driving has been made by the automotive industry this year in the re-designing of the automobile clutch, with some car manufacturers reporting as high as one-third in the amount of pressure required to depress the clutch.

Tests made over a period of years show that whereas pressure of fifty pounds and over were formerly required for complete floorboard depression, some 1939 clutches can be depressed with as little as twenty-five pounds of pressure, it is revealed by L. I. Woolson, chief engineer of the De Soto division of Chrysler corporation.

"The ease with which today's clutch pedal works can be more easily understood," Woolson says, "when it is explained that of the twenty-five pounds necessary for pedal depression, approximately twenty are obtained by merely resting the foot on the clutch pedal.

"By making certain changes in the design of the over-center clutch spring on the 1939 De Soto, we have reduced the necessary pedal pressure by one-third. This marked difference, which is quickly noticeable even to inexperienced drivers, is particularly important in city driving, where the clutch is constantly being thrown in and out for frequent stops and starts.

"A further improvement made in the clutch is the lightening and redesigning of the clutch disc. In the De Soto this means that gears can be shifted smoothly and quietly without clashing or tugging.

"The bearing that plays such an important part in the release of the clutch is lubricated for the life of the car in the De Soto. Periodical lubrications were formerly necessary to insure perfect operation of this clutch bearing."

De Soto and Plymouth are sold in Daly City by Donahue and Laufenberg, 6259 Mission street.

Drama for Drivers

Sound Effect: (Squeal of brakes.)
Driver: Boy, that was a close call! Another couple inches and . . . whew! I hate to think what would have happened!
Announcer: Yes, that was a close call, Mr. Motorist. Maybe next time you won't be so lucky. Make sure there won't be any next time by driving more carefully. Last year, 32,000 people were killed and more than a million injured in traffic accidents in the United States, according to the National Safety council. Offer Military Training to 1,100 Men

The Citizens' Military Training Camp, to be held at the Presidio of Monterey this summer, offers an opportunity for 1,100 California young men between the ages of 17 and 29 to be trained in the duties and responsibilities of American citizenship, it was stated today by Colonel Homer M. Groninger, Eleventh Cavalry, Camp Commander.

During the month of July, training in Infantry, Cavalry, and Field Artillery is offered, under the leadership of regular Army and reserve officers, specially selected for this important assignment. Transportation to and from the camp, clothing, food, and quarters are furnished by the government to all trainees.

In the summer of 1938, the Citizens' Military Training Camps all over the United States enrolled 33,000 young men for the month's training period. The Monterey Camp, largest in the Ninth Corps Area, included 1,100 youths from all over California and western Nevada.

Dodge Occupies Strong Position In January Sales

A feeling of optimism is being expressed by local business leaders following the announcement just released in "Motor Recorder" that registrations of new motor cars in California in January totaled 14,761, an increase of approximately 35 per cent over January of last year.

According to the final figures, Dodge occupied a strong fourth position in January registrations in the state, outselling all but the three lowest-priced makes. Dodge showed a sensational gain over January of last year of 85 per cent—nearly two and one-half times the rate of increase for the industry.

"For a number of years the sales of the automotive industry and particularly of Dodge have been regarded as a pretty accurate business barometer," said O. C. Bartens, manager of Pantaleoni Brothers, Dodge agency here. "To swing into the new year with such an impressive increase during the first month should be cheering news to all business and industry.

"On a number of occasions in the past, the automobile industry has led the country into new periods of business activity and we trust that the record in California in January is a forerunner of improved business all along the line."

Road conditions are good via Hollister to The Pinnacles National Monument, reports the California State Automobile association.

Golden Text From Romans

"Doctrine of Atonement" will be the subject of the Lesson-Sermon Sunday, April 16, in all Churches of Christ, Scientist, branches of The Mother Chruch, The First Church of Christ, Scientist, in Boston, Massachusetts.

The Golden Text will be: "We also joy in God through our Lord Jesus Christ, by whom we have now received the atonement" (Romans 5:11). Other Bible citations will include: "There was a man of the Pharisees, named Nicodemus, a ruler of the Jews: The same came to Jesus by night, and said unto him, Rabbi, we know that thou art a teacher come from God: for no man can do these miracles that thou doest, except God be with him. Jesus answered and said unto him, Verily, verily, I say unto thee, Except a man be born again, he cannot see the kingdom of God" (John 3:1-3).

The Lesson-Sermon will also include the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Christ expresses God's spiritual, eternal nature. The name is synonymous with Messiah, and alludes to the spirituality which is taught, illustrated, and demonstrated in the life of which Christ Jesus was the embodiment" (p. 333).

FEATURING FROSTINGS

The frosting of a cake is truly its crowning glory! It provides the perfect complement to the flavor and texture of the cake, and it is as important to its appearance as is the trimming to a hat.

A perfect cake can be completely spoiled by an ordinary frosting and contrariwise, a perfect frosting can do much to disguise a very ordinary cake.

Failure-proof frostings that are good to eat and simple to make are none too easy to find, but here are recipes for three frostings that meet all these requirements. Peanut butter lends its own distinctive nutty flavor to each.

QUICK PEANUT BUTTER FROSTING

¼ cup butter
1/3 cup peanut butter
⅛ teaspoon salt
2¼ cups sifted confectioners' sugar
¼ cup cold strong coffee
½ teaspoon vanilla

Cream butter, add peanut butter and salt; blend thoroughly. Add sugar, alternately, with coffee, a small amount at a time. Cream thoroughly after each addition until smooth. Add vanilla. May be stored in covered jar in refrigerator until ready to use. Makes enough frosting to cover tops and sides of two 8-inch layers.

QUICK PEANUT BUTTER COCOA FROSTING

¼ cup water
4 tablespoons cocoa
½ teaspoon salt
¼ cup butter
2¾ cups sifted confectioners' sugar
¼ cup peanut butter
4 tablespoons water (about)

Add ¼ cup water to cocoa. Mix to smooth paste. Cook over boiling water 2 minutes. Cool. Add salt. Cream butter, add sugar gradually, blending after each addition. Add cocoa mixture and peanut butter. Beat until smooth. Add remaining water, 1 tablespoon at a time, until of right consistency to spread. Makes enough frosting to cover top and sides of two 9-inch layers, or top and sides of an 8x8x2-inch cake, or about two dozen cup cakes.

Simply by reaching for a jar of peanut butter you transform a Seven Minute Frosting into a smooth, rich-tasting "crowning glory" for a white or gold cake.

PEANUT BUTTER SEVEN MINUTE FROSTING

2 egg whites, unbeaten
1½ cups sugar
5 tablespoons water
⅛ teaspoon salt
1½ teaspoons light corn syrup
1/3 cup peanut butter
1 teaspoon vanilla

Combine egg whites, sugar, water, salt, and corn syrup in top of double boiler, beating with rotary beater until thoroughly mixed. Place over rapidly boiling water, beat constantly with rotary beater, and cook 7 minutes or until frosting will stand in peaks. Remove from boiling water; add vanilla and beat until cool and thick enough to spread. Add small amount to peanut butter, blend thoroughly, and fold into remaining frosting. Makes enough frosting to cover tops and sides of two 9-inch layers, or one 8x8x2-inch cake.

LEST YOU FORGET

When you're frosting cakes, guard against too much handling. Remember, too, that frosting the sides first makes it easier to achieve perfection. Pile the frosting around the edge of the top of the cake; then with a spatula, spread the frosting over the edge and down the sides.

And finally, don't overlook the fact that a few quick swirls with the spatula, when the last spoonful of frosting is in place, gives an uneven (but highly professional) finish to your cake.

Short Talks

By Lloyd E. Ellis

"Ask, and it shall be given you; seek, and ye shall find; knock and it shall be opened unto you." (Matt. 7:7.)

Whatsoever a man shall seek after in this life he is likely to find. If he desires knowledge, and uses his time and energies in that pursuit, he will grow wise.

If he begins to look for evil, he will not be long finding it, for such abounds. If, on the other hand, he is determined to find good and earnestly tries to see the better side of things, and to live on the sunny side, life will be filled with beauty for him. There is an abundance of things in the world, and as one shall set his course so may he travel in his journey through life.

The supreme ruler of heaven and earth has declared that man should seek his kingdom and his righteousness first—in preference to all other things, and that if he does so, opportunities will be his to secure all needed material blessings.

Seek the best of life and be assured that the object of your desire will be granted to you in such measure as you deserve.

Civic Progress By Mayor Selmi

Preparations for our annual clean up week will be under way very soon. Following announcements of clean up dates, cards will be sent to every resident explaining details of the program. Homeowners will be asked to clean out their basements, back yards, and alleys and deposit debris along the curb. City trucks will pick up the waste free and take it to the dump. It is hoped that residents will cooperate in the clean up week as well as they have in former years.

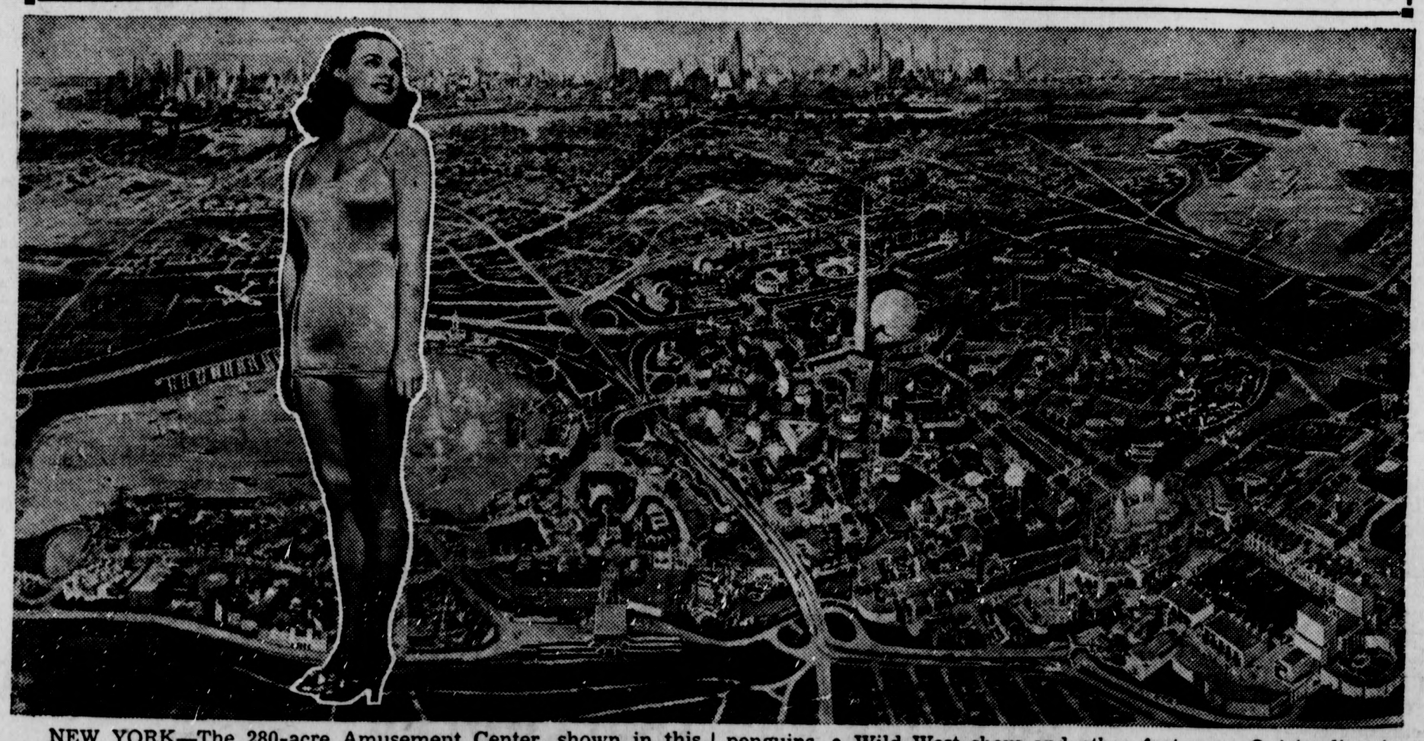
Street Work—

A program of street work developed under WPA supervision is being prepared for all unimproved local thoroughfares. Preliminary estimates of costs show that this work can be done at a nominal cost to property owners if it is set up under WPA. Such an opportunity, we feel, should be given every consideration.

Henry Prziborowski, Vista Grande avenue, is at patient at Letterman General hospital in the Presidio, San Francisco, where he has been seriously ill suffering from an attack of pneumonia. Latest reports are that he is improving.

FUN FOR THE VISITOR TO NEW YORK FAIR



NEW YORK—The 280-acre Amusement Center, shown in this section of a drawing by Artist H. M. Pettit, will be devoted exclusively to thrills and rib tickling. There will be a jungleland, enchanted forest, "old New York" village, a Penguin Island with live penguins, a Wild West show and other features. Outstanding in entertainment will be a million-dollar Aquacade featuring Eleanor Holm (inset), Olympic and stage star, to be presented in the 10,000-seat Marine Ampitheater.

Crocker P. T. A. Installs Officers

On Tuesday afternoon the regular installation of officers and yearly luncheon of Crocker P. T. A. was held. Luncheon was served at noon and Mrs. Lillian Landini, Mrs. B. D. Ralston, president of the seventeenth district, Mrs. Edith Fuhr, sixth vice president of seventeenth district, and R. L. Crane were honored guests. The ceremony was simply and graciously conducted, and the following officers took their places for the ensuing year: Mrs. Mildred Seiler, president; Mrs. Florence Thorsen, vice president; Miss Aileen Suber, honorary vice president; Mrs. Julia V. Jordan, recording secretary; Mrs. Hazel Cassasa, financial secretary; Mrs. Vivian Pahlka, corresponding secretary; Mrs. Orvilla D. A Tribute to the Retail Merchants of this Community

Each of us has an obligation .... a real debt to the merchants of Daly City. Year in and year out, they bear a fair share of the tax load. Some of them pioneered this town. They've molded it into what it is. On their counters and shelves, you find the quality products of the world .... selling at fair prices.

Let us bear in mind that the dollars we spend with our local merchants stay within the community circle. "Trade at home" is no idle phrase. We urge every citizen to do his or her part in "Keeping Our Main Street Facing Forward." And, in the field of printing, keep your jobs in Daly City.

Plan Huge Rodeo For World's Fair

Prize lists have gone to the printers and will soon be mailed out to cowboys and rodeo contestants throughout the West for the World's Fair Rodeo, planned as the biggest event of its kind ever held anywhere in the world, according to an announcement today from J. Sheldon Potter, chairman of the committee in charge.

Ray Bell, former world's champion cowboy, is manager of the Rodeo which is to be held in the arena of the $275,000 California Coliseum plant on Treasure Island, May 12 to 21.

The Livestock Division of the Fair, of which E. J. Fjeldsted is chief, is in charge of the Rodeo as well as the International Horse Show scheduled for June 30 to July 9, and all other livestock shows during the Fair.

Attracted by the largest purses ever offered in the West, more world's champion bronc riders, bull riders, trick riders and ropers will compete in this World's Fair Rodeo than have ever before gathered at one round-up in the world, Bell declared today. Letters, post-cards, telegrams and personal visits from stars of the rodeo world indicate that the Treasure Island Coliseum will be the stamping ground for the "big shots" of the cowboy firmament from May 12 to 21.

Announce Few CCC Places Still Open

The CCC Selecting Agent for San Mateo county, Miss June Mahon, announces that there are still a few places to be filled in the county quota for the April CCC enlistment. The improved educational facilities and excellent job training opportunities in camp as well as good job placement after periods of camp enlistment, have made more and more boys realize the many advantages of camp experience, she explained.

Any boys between the ages of 17 and 23 inclusive who are unemployed and in need of employment and who are not registered in school, are eligible for camp placement. Those interested should file their applications as soon as possible at the State Relief Administration office, 430 Peninsula avenue, San Mateo. Enlistment terms are 6 months.

In order to facilitate completion of applications, each boy applying should be accompanied by one of his parents and should bring with him, if possible, some written verification of his birth date.

Physical examinations by the Army doctors will be concluded on April 17, 1939, and all boys wishing to go to camp in this enlistment should file their applications not later than Saturday, April 15.

Five hundred of the world's greatest paintings, valued at more than $30,000,000, will be displayed at the New York World's Fair 1939. Most of the famous painters from the Middle Ages to the Nineteenth Century will be represented.

State Bar Urges Speed Up In Courts

Determined to pursue a vigorous campaign to speed up decisions of court proceedings and reduce costs of litigation, the State Bar of California is actively urging enactment of nearly fifty statutes by the legislature.

Adopting the policy that the organized legal profession is the logical group to sponsor improvements in the administration of justice, the state bar is engaged in the most extensive legislative program it has attempted.

One of the chief measures urged by the bar is the bill to improve the present appellate court structure. The bill, known as ACA 32, has for its purpose the enlargement of the appellate court system to the extent that it will be able to abolish the long delays encountered by litigants whose cases are appealed from the trial courts.

Under present conditions, it was pointed out by Claude Minard, secretary to the State Bar, many instances of injustice result from long delays required to obtain a final decision in contested law-suits.

Also on the bar's legislative program is a bill designed to aid poor persons in obtaining a judicial determination of claims they may have. The bill, known as AB 25, provides that persons of limited means will not be required to pay court costs to start their litigation or advance the $24 daily jury fee.

Of County NYA Staff Examine Members

Nearly completed this week through the cooperation of the San Mateo County Department of Health and Welfare, was the physical examination of all members of the county's National Youth Administration staff, Supervisor Tompkins announced. The examinations are a phase of a national drive for public health, he said.

The health department, under Dr. Charles C. Gans, has performed a complete set of diagnostic tests for and provided free immunization for such diseases as smallpox, tuberculosis, diphtheria and other communicable diseases. Health certificates attesting to the examination have been given to each of the NYA workers tested.

To be eligible for NYA employment, persons must be residents of the county, 18 to 25 years of age, and members of a family now receiving relief or eligible for relief, Tompkins said. Members of his force throughout the county perform stenographic work, landscaping and beautification work for all public buildings, and other types of service. Seven youths now in the employ of the NYA here are busy at the county engineer's department painting wooden street signs, while five more are working on the gardens about the new Half Moon Bay high school.

"Idiot's Delight" To Play at D. C. Theatre

Norma Shearer and Clark Gable will be seen in their latest picture, "Idiot's Delight," Sunday, Monday and Tuesday, April 16, 17, 18 at the Daly City theatre. Not since they were the glamorous lovers of "A Free Soul" has the screen witnessed such excitement. This, their greatest triumph, is the Pulitzer Prize winning drama that Broadway stood in the aisles to watch for a solid, sensational year. Now a motion picture entertainment, it is greater than the stage ever dreamed it. Edward Arnold, Laura Hope Crews, Joseph Schildkraut and Skeets Gallagher all have strong supporting roles in this Clarence Brown production.

The companion picture is "Off the Record," a new Warner Brothers picture with a newspaper background, with Pat O'Brien and Joan Blondell teamed as its co-stars and young Bobby Jordan of the "Dead End" kids playing a featured role.

The last previous production in which Pat and Joan were co-starred was also a newspaper picture, "Back in Circulation," but aside from the similarity of background, the new picture has little in common with the former one.

This time Pat and Joan are both reporters on the same paper, and considerable excitement is lent the production by the depiction of their professional exploits, but the fundamental theme of the story—and one that is full of genuine heart throbs—is the determination of Joan, a warm-hearted and sympathetic woman under her cynical exterior, to accomplish the reform and rehabilitation of a little tough kid.

She encounters the kid first in the course of an expose of juvenile gambling that contributes to the coffers of the city's gambling boss, and after he has been sent to reform school, she contrives to have him paroled to the custody of herself and Pat, to whom she has just been married.

Pat is not at all sympathetic with her interest in the little tough, but the boy's genuinely good qualities eventually win him over, though along the way the youngster apparently reverts to his former criminal habits.

"Village" Changes Name of Attraction

The Greenwich Village attraction known as "Temptation" has been changed to "Fifteen Minutes in a Turkish Harem," according to an announcement received this week. Greenwich Village is described as the largest concession on the Gayway on Treasure Island.

Theshow itself, however, is completely changed. Among the dances featured are the Nautch dance, the Salome, and the Far-East Jitterbug.

"Fifteen Minutes in a Turkish Harem" is one of some forty different attractions in Greenwich Village. Others include Zorima's Garden, Artists and Models, Life, and a gala girl show with 100 Calipigian beauties.

For the protection of visiting motorists steel protecting guards have been installed on curves in the mountainous section of the Laredo-Mexico City highway.
